You are the client. We act on your behalf, canvassing the market for quality and cost efficient insurance products. The insurance market is always changing: our dedicated personal lines team can help you adjust to the changes.

Consider This

Our qualified brokers and trained customer service agents work around your schedule to ensure that all your questions are answered with accurate and current information. We offer a wide choice of innovative policy features, competitive premiums and 24 hour claims assistance from our reliable insurance partners.

We can also assist in decoding the myths about auto insurance, such as:

- * The insurance premium charged to you, the customer, does not change if you go through an insurance broker. We are there to ensure you get the best possible price.
- * In addition to age, insurance rates are based on the driver, past claims, traffic convictions and vehicle information.
- * No-fault insurance is a system that enables your Insurance Company to compensate you, when an accident occurs, regardless of who is at fault, to provide benefits to injured victims as quickly as possible.
- * Insurance companies are not able to change their insurance rates and/or premiums unless approved by the Government. Tabs are often kept to record how much they are charging.
